

JOB READINESS ADULT TRAINING COURSES

Substance abuse is cannibalizing our state and I am deeply committed to do whatever it takes to fix our state's drug crisis. The problem strikes at the health of not only the individual drug users, but at the safety of our communities, the quality of our workforce and the bonds of family. Too many West Virginia children are in foster care, or the care of their grandparents, because their mothers and fathers are in prisons or are prisoners of addiction.

We are making progress but more must be done. It's going to take a major financial commitment to do this and now that we have a healthier budget and revenue surplus we're in a great position to take a full swing at fixing our state's problem with substance abuse.

That's why I've come up with Jobs & Hope WV.

Jobs & Hope WV is a beginning-to-end program that allows an individual to receive free addiction treatment while at the same time receiving free career technical education. All West Virginians are welcome to receive free additional training and certification whether you have a drug issue or not.

When they complete the program and receive their certifications, they will have the immediate opportunity to expunge misdemeanor offenses that can be such a huge burden to finding a job.

With a dedicated transition agent, they will have all the tools they need to find a job. One program to lift our most vulnerable West Virginians from the depths of addiction to treatment, education, forgiveness and a job.
