Court
Coordinator

Christine
Fox
Counsel

- The West Virginia Adult Treatment Courts (ATC) are a cooperative effort of the criminal justice, social service, substance abuse treatment, and law enforcement systems.
- The ATC are established in accordance with The West Virginia Drug Offender Accountability and Treatment Act (*West Virginia Code* § 62-15-1, *et seq.*) and are designed and operated consistent with the Ten Key Components of Drug Courts, authored by All Rise, and operate under policies and procedures established in consultation with the Supreme Court of Appeals of West Virginia.
- All ATCs use evidence-based treatment approaches and assessments and are evaluated annually.
- Referrals to ATC can be made by probation officers, circuit judges, law enforcement officers, prosecuting attorneys, treatment providers, and defense counsel.
- The program is structured in four phases with built-in aftercare in the program. The minimum program length is one (1) year, as set forth by WV code. Treatment Courts may include pre-adjudication or post-adjudication participation.
- Program components include: intensive supervision, frequent, random, and observed drug testing, meetings between participants and their probation officers, counseling sessions for participants, court appearances for participants, and community service.
- The program seeks to achieve a reduction in recidivism and substance abuse among individuals and to increase the likelihood of successful rehabilitation through early, continuous, and intense treatment, mandatory random drug testing, community supervision, appropriate sanctions and incentives, and other rehabilitation services, all of which is supervised by a Circuit Judge.
- Cost savings for the criminal justice system stem from reduced re-arrests, law enforcement contacts, court hearings, and use of jails or prisons. Other cost savings for the State result from decreased use of residential treatment centers.
- For FY 2026, the average annual cost per treatment court participant was **\$4,413.04**, as compared to \$26,670 in the Regional Jail or \$35,452 in a Division of Corrections and Rehabilitation. These costs include intensive supervision, treatment, case management, and drug testing.
- For FY 2026, there were thirty (30) operating ATCs serving the following counties: Berkeley, Boone, Brooke, Cabell, Calhoun, Doddridge, Fayette, Greenbrier, Hampshire, Hancock, Hardy, Harrison, Jackson, Jefferson, Kanawha, Lewis, Lincoln, Logan, Marion, Marshall, Mason, McDowell, Mercer, Mingo, Monongalia, Monroe, Morgan, Nicholas, Ohio, Pendleton, Pleasants, Pocahontas, Putnam, Raleigh, Randolph, Ritchie, Roane, Summers, Tyler, Upshur, Wayne, Wetzel, Wirt, Wood counties.
- National research supports the effectiveness of ATCs that adhere to best practices and evidence-based programming from the fields of substance abuse treatment.
- For FY 2026, there were **889** total JTC participants served.
- As of June 30th 2026, the recidivism rate for Adult Treatment Courts in West Virginia since program inception is approximately **15.24%**.
